ABOUT ME 👤

I am Jawad Alhajj, a seasoned Vue.js Developer with over 3 years of experience in the field. My expertise lies in Vue.js development, where I adeptly utilize various Vue libraries to enhance the functionality and performance of web applications. Proficient in crafting efficient and scalable front-end solutions, I bring a strong work ethic to every project, ensuring high-quality results that exceed expectations. I will get an engineer diploma from Islamic university in 1 year.

WORK EXPREIENCE 🛍

JAN 2021
SEP 2021

TECH TEACHER
Self Employed

During this period, I successfully completed HTML and CSS, incorporating responsive design principles in multiple projects. Motivated by this expertise, I ventured into teaching, imparting knowledge to both educated and non-educated students.

JAN 2022
DEC 2022

Front End Helper
Self Employed

After mastering JavaScript and practicing with various UI frameworks, I collaborated with friends to further enhance my skills. I delved into UI design with Vue.js and its libraries, engaging in real-world projects that honed my programming abilities as a front-end developer. Additionally, I expanded my knowledge to include backend technologies and security aspects, exploring areas such as Node.js, Express, MongoDB, and more.

JAN 2023
JAN 2024

Freelancer
Self Employed

After honing my skills, I ventured into freelancing, catering to clients both locally and globally. The majority of my projects originated from my local network.
